DETAILED ACTION

1. Receipt is acknowledged of the Amendment received on 20 October 2003.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gehris on 5 November 2003.

IN THE SPECIFICATION:

At the beginning of the Specification (line 1) insert: -- This application is a 371 of PCT/EP00/04816 filed on 26 May 2000. --

Allowable Subject Matter

3. Claims 12-24 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art of record teaches encoding of information in a card through the temporal relation of impulses, but fails to teach an identification device including a signal generator device where a frequency spectrum of the mechanical clacking noise encodes the information, where the signal generator device includes at least one of a tongue, plate, and a curved surface for folding upon an overcoming of an initial resistance, the folding generating the clacking noise. The Examiner

does not see modification of the prior art to teach the current invention as obvious to one of ordinary skill in the art as they are silent to mechanical generation of the sound in the aforementioned manner and do not teach clacking encoded information within its frequency spectrum.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Akhteruzzaman et al. (US 5,406,619) and Holt (US 6,404,862).
